

# Houla Massacre Victims

## The “64 Children” Correlated List

This document seeks to be the most comprehensive yet listing of Houla Massacre victims, all from opposition lists. Collapsing most-likely matching entries, a total of 121 still come out, including a very few likely phantom entries created from bogus reports (#92, 112 especially). A majority of these have identified photos available through the second linked PDF below.

This list is broken into two categories of dead – Civilian Victims (112 entries) and Combat Deaths (mostly known or likely rebel fighters - 9 entries). The table, from left to right: new number (– means not counted/collapsed into another), gender (B=boy, etc. in the original order), then the three compared sources:

- 1) Arabic Correlated list – two slightly different lists of 107 entries each correlated into a master list of 113 entries (no collapsing) with Arabic original and best transliteration. [PDF link](#) - Here, the transliteration and entry number on that list.
- 2) 2014 list – collected from [a Facebook page](#) with much info but unknown reliability – sorted by family, missing prior entries, but with different ones in their place, for a total of 105 entries. [PDF link](#) including links to family-by-family graphic photo-sets. Last name spelling Abed Al-Razaq usually abbreviated A. below for space. Ages almost always given (ages from other sources in parentheses)
- 3) Entries from the Center for Documentation of Violations in Syria (VDC) martyrs database. Name as given, martyr number in many cases (swap into the red numbers of this url for a link: <http://www.vdc-sy.info/index.php/en/details/martyrs/17166/> ) Age “0” means blank, “10” usually just means child, both ignored. Other ages when given, mother's name (M:) sporadic other notes included. A number followed by Ch. means married with that many children. Cause of death: “field execution” unless specified.

-n/l- means not listed. Col = collapsed (different names but probably the same person, etc.)

#### Government Forces

At least 5-6 government fighters were reportedly killed in the attack. One source says two officers and three soldiers died, and a pro-government media source filmed a total of six dead, 5 clear military and a man in civilian clothes. [VDC “regime fatalities” for May 25: 8 nationwide, none seemingly related.](#) No one else on the opposition side mentions or lists them either. Either there were no (loyal) soldiers killed there that day, or they didn't report it to the VDC (or, less likely, they did but the VDC didn't run it).
