

# THE BEAST

Mentor Meeting #13

Monday, 10/14/2019

## AGENDA

<u>Topic</u>	<u>Item</u>	<u>Resolution</u>
<b>Business</b>		
Example	I. Status of BMP Assembly	I. BMP frame, wheel hubs, and batteries are fully assembled along with the plywood installed. Testing for rigidity under loading Will, Nick, Ali, and Myself all stood on top of the BMP at the same time amounting to a load of approximately 800lbf. The frame deflection was minimal with the suspension absorbing the load as expected.
