

Agenda – October 24th, 2013

University of Idaho: Team New Perspective

Discussion

Share what Frank found out from Mike Dixon regarding traffic camera's, etc.

- What to do with stopped traffic becoming part of the background
- Contacting people about getting footage
 - Camera that doesn't do any image processing during the day pointing down the street at least 400m

Website Update

Talk about error calculations with the new imager specs

- With new specs got down below 5% error

Give an update on coding

- Getting the SSLAR2 to work with Visual Studio

Action Items
