

# 2018 SCADA Control Team

(The second meeting)

**IMPORTANT:** *The Team's work is IN PROGRESS. This is simply a report to reflect the Team's activities on this particular meeting day. The Team's proposals may change before end of the process.*

**1. Meeting Date and Time:** Monday January 28, 2019 4:00p.m

**2. Meeting Location:** G10 in BEL

**3. Meeting numbers:**

Dr. Brian Johnson (client)

Hussain Beled (TA)

Kevin King (team number)

Hui Ma (team number)

Ziang Xu (team number)

**4.Meeting Participants:**

Dr. Brian Johnson (client)

Hussain Beled (TA)

Kevin King (team number)

Hui Ma (team number)

Ziang Xu (team number)

**5. Main topics discussed by Team today:**

-Connect relays, microcontrollers and motors

-Design review#2 (before Feb.15)

## **6. Additional questions and information**

Geoff can provide all kinds of cables we need

Use HMI to control the code, then control the two buttons

Set a higher load

Make sure the range of voltage in the two buttons

Advice for the final Expo: Using a form of video to show others how our design works

**Next meeting would be held in G10 of Buchanan Engineering Lab on February 4, 2019 4pm.**
