

Vandal Forge
Team Meeting Minutes
25 OCT 2016

- Matt updated team on our progress with respect to the Gantt chart.
- If team is going to compete in the Idaho Pitch Competition we need to sign up by 11/4.
- Each team member shared our design sketches for the MIG welder printer.
- Nathan working on finishing the wikipage for review on 11/8.
- Kyle demoed using a power supply to arc a small wire, but unit can't sustain voltage, he hasn't been able to meet with Dr. Hess yet.
- Discussed the possibility of acquiring discarded batteries from the Electric Car Project.
- Kyle updated team on parts purchasing progress.
- Design Review scheduled for the Think Tank @ 4:30PM on 11/7.
- Discussed how Smoothie's configuration file is quite large and may possibly be used to reduce the total amount of firmware development required.
- Sensor integration will almost certainly require the programming of new Smoothieware modules however.
- Logbook/Portfolio check coming up on 11/8.
- Team member citizenship form due on 11/18.
- Welder Demo JML on Thursday 10/27 @ 9:00AM
