

2018 SCADA Control Team

(The second meeting)

IMPORTANT: *The Team's work is IN PROGRESS. This is simply a report to reflect the Team's activities on this particular meeting day. The Team's proposals may change before end of the process.*

1. Meeting Date and Time: Thursday October 18, 2018 12:30p.m

2. Meeting Location: G10 in BEL

3. Meeting numbers:

Dr. Brian Johnson (client)

Hussain Beled (TA)

Kevin King (team number)

Hui Ma (team number)

Ziang Xu (team number)

4. Meeting Participants:

Dr. Brian Johnson (client)

Hussain Beled (TA)

Kevin King (team number)

Hui Ma (team number)

Ziang Xu (team number)

5. Main topics discussed by Team today:

-Get familiar with the equipment (circuit connections)

-Give options to carry on the design

-Wiki page

6. Additional questions and information

Xiang leave the team, and someone may come and join us.

Kevin take the responsibility of Budget.

Voltage Range input is 125V.

Domain: 172.29.131.1/192.168.1.2

Four options to choose:

- a. Designed potential meter
- b. ABB
- c. Step Motor
- d. Voltage Power Supply

(Details would be complete next)

This is ABB and we would learn how to use this next.

Next meeting would be held in G10 of Buchanan Engineering Lab on October 25, 2018 12:30pm.
