

Yifan Zhu

Good afternoon, doctor Johnson and Smadi.

Yifan Zhu

Today.

We don't have much things to talk about, but we have some words that we want to share with you? Firstly, we would like to express our gratitude to all of you helping us during the whole project. Doctor Johnson. Thank you for offering us the valuable suggestions in the electronic studies. Doctor Li is not here, please sent him our gratitude. So, doctor Li, thank you for your concern, guidance and encouragement. Smardy, thank you for helping us during the labs. And also, please express our gratitude for Joe. Joe, thank you for your instructions about the labs and always be patient for our questions. I think this is the last weekly meeting we have. We are aware that we are not good enough and, have a lot of shortages, no matter it is objective or subjective. There is something in our control and also something out of our control. Therefore, we really appreciate it for all your efforts for us and for the upcoming expo, and the, technical presentation. We will do our best to make it successful.

Thank you.

Doctor Johnson

Thank you um. You may actually want to do one more meeting next week. If your team wants to rehearse your presentation with an audience, we would be happy to listen to your presentation and give you feedback.

We realize this has been a kind of challenging set up for this project to try to do this with the thought being able to go in the lab, and then having limited ability to get people to go to the lab to help you. So, sorry, we weren't able to give you better support. And some of that.

Yifan Zhu

And we are grateful to all your efforts. Thank you. This week. I don't think we have anything to report the way I just working on our poster and presentation and I'm trying to design, maybe one or two more. That's about the network emulation. So that, we can wrap it up and present in the memorial gym, university of Idaho.

Abdallah

Regarding the memorial gym. The day of the presentation. I think you saw the correspondence between the technical guys on the ticket.

Yifan Zhu

I saw it.

Abdallah

I'll try to contact doctor Johnson and doctor Li before one day from the presentation and go there, check the setup. Try to make a test with you like, a zoom test, to see if you are good to go. This is what I'm thinking of. So, I'll discuss that with also doctor Li and also pick up the at the poster. To Thursday.

Doctor Johnson

How is the poster session going to work? Are they going to have a video link to the poster? Or are they just gonna have a recording of their stuff?

Abdallah

I think the poster will be posted there and they are gonna have like a monitor or a computer to explain this to the audience. This is what I understand from the correspondence through the ticket.

Doctor Johnson

Because that's kind of in the middle of the night for them.

Yifan Zhu

That wouldn't be a problem. We can stay up late.

Doctor Johnson & Abdallah

Good.

Doctor Johnson

Hopefully they have decent WiFi in the memorial gym.

Abdallah

I hope so. I remember one of the students said he tested the RTDS he connected to the RTDS from the memorial gym and he had like a good signal there.

Doctor Johnson

Ok, Good.

Abdallah

Doctor Li, we were talking about like the final set up the day before uh, the presentation or the session of the poster. So, I was talking to Yifan that I like, I' ll grab them. The poster. Right? You can just call with them through zoom. Like, it could be Thursday, not Friday because your session is at 9: 00 or at 10:00. I think, at 9:00, right?

Doctor Li

Should be at 9:00. In China is 1:00. So that's a convenient for them in China. Yeah. So, for Ray' s E-mail, have you checked that E-mail yet?

Abdallah

Which one?

Doctor Li

Anderson, Ray Anderson from the IT.

Abdallah

That EMAIL. I saw that he's gonna install a monitor. He has a couple of options, either installed a monitor or a laptop. So, I think I'm gonna contact him when the times come like, contact him and see if there is any bus or something.

Doctor Li

So have you replied his e-mail yet? I didn't take a look at.

Abdallah

I did not reply to his EMAIL. He was talking to Yifan and to someone else from the technical support. Because when he initially sent his reply, they forward that the EMAIL to someone else and then they do a process there.

Doctor Li

Ok.

Abdallah

It's a good idea to reply to him and give him my EMAIL, my phone number.

Doctor Li

So Yifan, are you ready to send your slides in PPT on Friday?

Yifan Zhu

On next Friday?

Doctor Li

No, is this Friday, the coming of Friday. 23rd.

Doctor Li

12 hours here, maybe it's not. The day before after tomorrow that the after tomorrow.

Yifan Zhu

We don't have...

Doctor Li

Have you started yet?

Yifan Zhu

It wouldn't be a problem, doctor Li.

Doctor Li

Yeah, good. So, thank you. You can send that to doctor Johnson. Yes. Abdallah and me, and to review.

Doctor Li

But better like U.S time, maybe by end of Friday, we have two days. Roughly 2 days.

Yifan Zhu

Okay. No problem.

Doctor Li

Get some feedback. And then.

Abdallah

Doctor Li, regarding the library to grab the poster. So, do I need to contact anybody? Or like?

Doctor Li

I think you just. Yeah, so we need an index number, right? Yeah, you just. Yifan, you send, upload online, I guess that we're gonna need that index number and I think. You just pick it up. This is a student union, the new student union.

Yifan Zhu

So why should we upload that PPT to the website?

Doctor Li

You see my EMAIL before?

Yifan Zhu

Yes.

Doctor Li

Yeah, so let's check my EMAIL. I think 2 EMAILs. There's detailed discussion about how to upload, where to upload.

Doctor Johnson

Yeah, so, there's a copy center at one of the student union buildings. They called the commons copy center. And so, that's where Abdallah would pick it up as well. So, they have a website where you can choose how you pay for it. And then we have the university calls its budget numbers, budget indexes. So, you would just enter the budget index number that um someone will give to you.

Abdallah

Yifan, please follow up this with me, like uh, if you could like, uh send me, the index number. So I could go there, and grab it from them.

Yifan Zhu

I'm gonna upload to our PPT to the website, so we can get the index number, and send it to all of you.

Doctor Li

Can you let me share?

Yifan Zhu

Sorry, please.

Doctor Li

This is. I'm not sure, yes.

You can see my EMAIL. This is the EMAIL I sent.

Yeah, and I think here to submit to the print shop. Out here, there is, no, He didn't give the link.

Doctor Johnson

I don't see a link for the print shop there.

Doctor Li

Yeah, I will just send, maybe it's easier for me to find there and send

everyone. Thank you. Yeah, I can send you the link later. Right?
Therefore, there are slides for their okay.

Doctor Johnson

So this is the place that you would submit it to. I'll put the link for this in the chat.

And submit the order online.

Yifan Zhu

Fine. Thank you.

Doctor Johnson

Does that EMAIL give instructions on like you have the poster size template and all that stuff for them?

Doctor Li

Yeah. So, I think I need, good for me, too. Give some details.

Even some students have no idea about what is the index number.

Doctor Johnson

Right. So, each team should have the teams that have ordered stuff have a finance person who might know the index but.

Doctor Li

But some teams they don't have or such an index at all. So, the, right? Do it confuse.

Doctor Johnson

Do you need one for this team?

Doctor Li

It may be easy for them to have the index number, right? Doctor Johnson. For this team.

Doctor Johnson

I can send you an index that you can use for. Or we may need to help from somebody in the Dean's office, but.

I would just charge it to my ear and return budget.

Doctor Johnson

Doctor law has a budget that can be used for this too.

Doctor Li

Right there. The this is our question, our thinking about.

Doctor Johnson

Yeah, so maybe talk to him about one for this.

Doctor Li

So let me talk to you. Maybe he has a better idea. In the past, we usually prefer that the client, the project is sponsor to provide their demand.

Doctor Johnson

The department is the sponsor. We use the department power lab budget to pay for the upgraded computer that they're using in the lab.

So, I can always give you that index if nothing else.

It's not like the poster. The posters don't cost that much anyway, it's not gonna cause problems for that budget.

Doctor Li

You said you have another account, for the power lab?

Doctor Johnson

The power lab. And we have.

I don't hope power and a vista formed an endowment for supporting equipment in the power lab. And sense. Basically, these are labs for the use for power classes. We can use that index.

Doctor Li

Yeah, I think we use that one is better instead of use you, I think, because this is for the course, so maybe it's the best. It's good to use that. Do you have that index number? Or should we contact Joe first?

Doctor Johnson

Let me. I'll EMAIL Joe and copy you.

Doctor Li

I think that's a bit easier.

Then you have our presentation on Friday, of the, next, Friday, 30 s

maybe it's better like you send slides on Wednesday. For review, review purpose.

Doctor Johnson

They could maybe practice them at this meeting time on Wednesday.

Doctor Li

Yeah, that's okay.

Yifan Zhu

Sure, no problem.

Doctor Li

It would be 20 like this year. They have 30 minutes for protection. Total 30 minutes. So that means 20 minutes about 20, 25 minutes presentation.

You have the template, you find this template. For the poster and tfor the presentation, yeah.

Yifan Zhu

I've downloaded and.

Doctor Li

Good.

Any other questions?

Yifan Zhu

I finished all reports today. Do you have any questions for us?

Doctor Li

I don't have just reminded if there are a good three major things, we need to take care of their poster. The oral presentation slides and final report due on 7th and think there are some other things you're your logbook. Your wiki needed to be updated. Said for final deliverable was like you're except besides there's a final report, you have some software of that kind of things. Package and send to doctor Johnson.

If you don't have another question. We'll see you next Wednesday. So, for your presentation.

Yifan Zhu

Sure. Thank you.
