

Meeting Notes

November 2, 2017

What was discussed:

- Brace brought in – chips and battery will be on back instead of chest
 - Loosen arm straps and add chest strap – this will be the area to tighten and fit
- **Due Dates:**
 - **November 7 – Log Books and Portfolio Due**
 - **Don't forget review sheet with logbook**
- Pitch Review:
 - Price? Market would most likely be to the health care professionals.
 - How to differentiate between competition? App!
 - Next Pitch in March
 - FDA certification, insurance
 - Patent (protection) before we keep pitching it? Set meeting here?
 - Electrodes for muscle twitch
- Software update
 - Make fake example – create “perfect trajectory” and then tweak data with known error.
 - Once we know zero position, have angles in each plane – horizontal and elevation

To do before next meeting (11/9)

- **Alex** to find estimated cost for harness (ask fabric lady) & add front strap
- **Alex** to print meeting minutes
- **Alex** to print app design off facebook
- **Colton, Ruth, and Matthew** obtaining data with arm (Tuesday 11:00am in Think Tank)
- **Quinn and Jacob** design casing (Monday at 2:30)
- **Portfolio Due**
 - Diagrams from ME people

Agenda for Next Meeting:

Date: Thursday, November 9, 2017

Time: 2:00 pm

Place: Think Tank Room A

Agenda:

1. Review all designs
