

Meeting Notes

October 19, 2017

What was discussed:

- Quinn brought first brace option
 - Stability could be increased with another chest strap
 - Easier velcroing on the arm piece could be useful
 - Be aware of incorrect data due to device being not tight enough
 - Attachment on chest – depending on how they put the device on – could result in different location of chips on bicep
 - Lighter material, more stretchy?
- Alex brought finalized (?) app design for Doc and Patient – uploaded to FB
- Colton started working on coding for app – got the first screens going
- Ruth has been working on math section of arm orientation paper
- DUE DATES
 - Nov 3 – WikiPage Draft
 - Nov 3 – Registration for Pitch Competition
- PITCH
 - Need value statement
 - Currently medical professionals have difficulty obtaining consistent, valuable data from recovering patients. We are looking for consistent and precise data to monitor this progress and direct each patient's unique recovery.
 - Good job, Jacob, on taking the lead on this!

To do before next meeting (10/19)

Alex to research competition for our device for Pitch Competition

Colton and Quinn to put together price sheet – to use for Pitch

Ruth already has this?

Agenda for Next Meeting:

Date: Tuesday, October 24, 2017

Time: 2:00 pm

Place: Think Tank Room A

Agenda:

1. Review all items for Pitch Competition!
