

February 12

Meeting with Lori

Notes:

Sent Schedule to Bre and Lori

3D Print cases with flexible material?

Able to use the machine in the Fashion Dept

Primary consumer = Patient, not Physical Therapist

Measured Quinn's arm?? Bre to have prototype by next Thursday!

TO DO:

Alex to work on Apparel Product Brief

Define "reasonable aesthetic," Age Range, Sex, Links to similar products, define # of "multiple therapists," who has more strokes (male or female?), etc.

Jacob and Quinn to send all dimensions to Bre

Lori's dad could be an option to test our device (donning/doffing) once a prototype is made

Set focus group with Stroke Patients???

Give good insight on what they would and wouldn't wear day to day.
