

Design Iteration 4-2-15

Features:

- A) The o-ring channel has been re-routed so that the 4 mounting holes no longer need to be waterproofed
- B) The project box has been decreased in width by 1 inch and increased in height by 1 inch
- C) Mouse ears have been brought back to prevent corners from pulling up
- D) All 3 ¼" holes have been moved to the top of the box for ergonomics
