

Technology Tracker

The Problem

There is currently no suitable tool for business leadership to utilize in order to understand the maturity level of technologies

The Goal

Create a tool that allows companies to visualize trends in patent filing, understand where technologies fit into the patent lifecycle, and make better decisions about whether to invest in a technology

The Plan

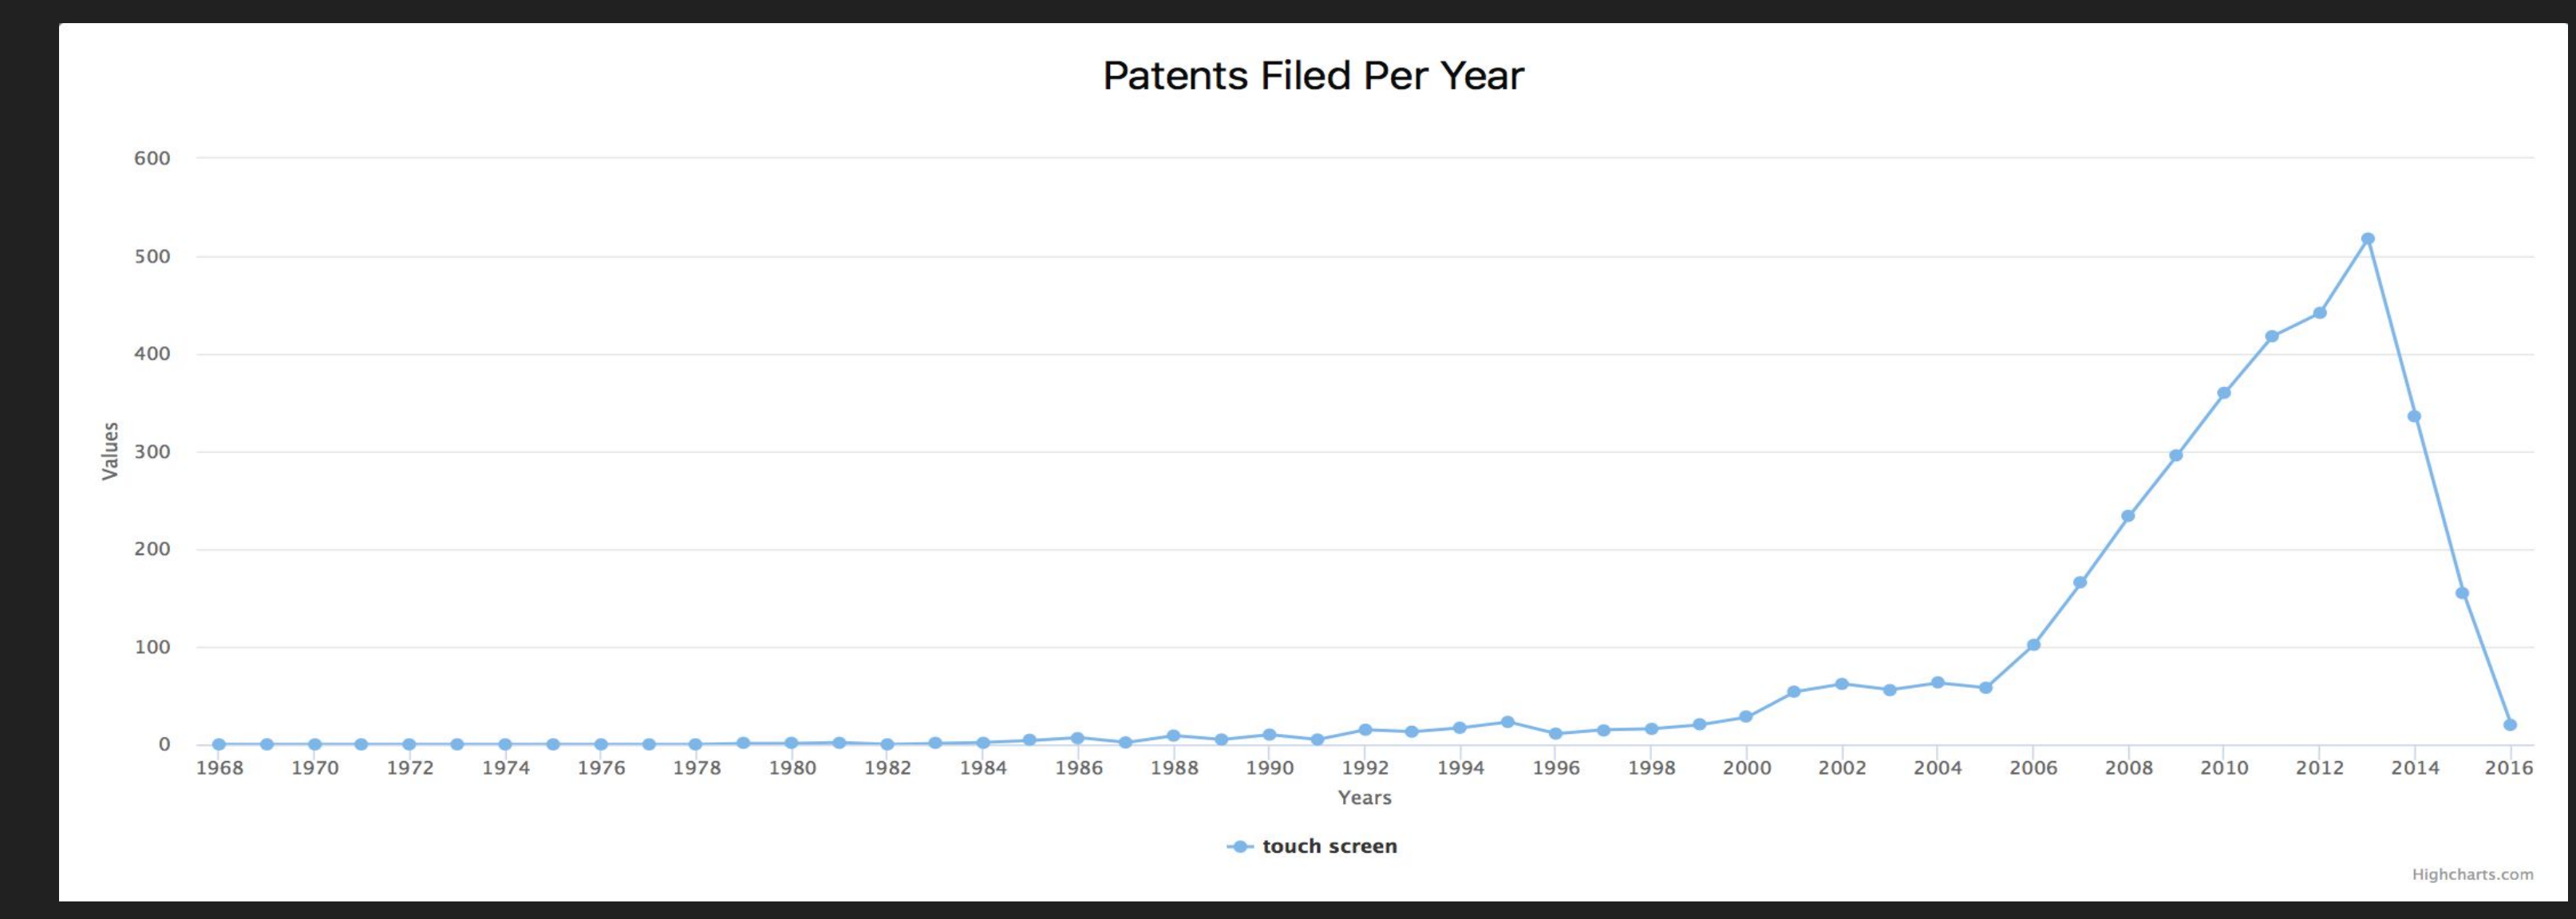

1. Acquire data from reliable sources
2. Analyze data to yield metrics
3. Present metrics in an easy to understand visualization

The Team

Brandon Ratcliff, Chris Campbell, Robert Stewart
