Client Interview Question	1w	All										1	-																			
Client Interview	1w	All										1	-																		_	
Skid Removal	1w	Omar/Saleh										1	-																			
Alumni Interview	1w	Adam/Omar										1	-																		_	
Complete Requirments	1w	All								_		1	-	_														_	1		_	
Solid Model Stock Skid	3w	All										-	-	_													_				_	
- CAD of Rail Assembly		Adam										-	-	_													_	_			_	
- CAD of Front Suspension Assembly	2w											-	-	_													_				_	
- CAD of Rear Suspension Assembly		Omar								_		1-	-	_														_	1		_	
Concept Design Development- Project Learning	5w											1-	-																		_	
-Electronic Power Transmission		Adam										-	-	_													_	_			_	
- Hydrostatic Motor		Omar										1	_	_																		
- Dual Driven Skid		Saleh										1	_																			
- Single Rear Driven Skid		Adam																														
Snapshot Day 1	1d	Presentation					Х																									
Design Validation Plan	3w				<u> </u>																								<u> </u>			
-Initial Plan		Adam																														
-Detailed Plan		All																														
Value Proposition	2w																															
-Each Team Member Drafts a V.P.	1w				<u> </u>																								<u> </u>			
-Final V.P. Drafted	1w	Adam																														
Concept Design Review	1d	Meeting							Х																							
EPO of Long Lead Parts	1w	Saleh								Х																						
Snapshot Day 2	1d	Presentation								Х																						
Solid Model Design Skid & BOM	6w	All																														
Rail & Driver Axles Assembly																																
Detailed CAD																																
FEA																																
Drawing Package & BOM																																
Forward Suspesion																																
Detailed CAD																																
FEA																																
Drawing Package & BOM																																
Rear Suspension																																
Detailed CAD																																
FEA																																
Drawing Package & BOM																																
Mid-Design Review																Х																
Detailed Design Review Adjustments																																
Engineering Release Review	1d	Meeting																Х														
Pre-Manufacturing Design Adjustments		Ĭ																														
dFMEA	3w																															
Rail & Driver Axles Assembly																																
Forward Suspension Assembly Parts																																
Rear Suspension Assembly Parts																																
Fabricate Prototype Suspension	6w	All																														
Rail Modification to accommodate pulley/driver axles																																
Fabrictaion of Forward-Mid-Rear Axles																																
Fabrication of Forward Suspension Arm																																
Fabrication of Rear Suspension Arm																													1			
Snapshot Day 3	1d	Presentation																				X										
Assembly of Design Skid		. resentation																														
Assembly Instructions	1w																															
Testing of Fabricated Skid	3w																															
Design Validation Plan & Results	1w	All																														
Snapshot Day 4	1d	Presentation																										Х				
Expo Poster	4d	All																														
Design Report	2w	All																														
nesign report	∠W	All	l	L	1		L	L	L	-													l	L	L	<u> </u>
