

Project Goal

To promote the newest version of the BandBeesten and Txalaparta through the creation of video tools and working with the creative talents of the Marching Band and Video Production Department.

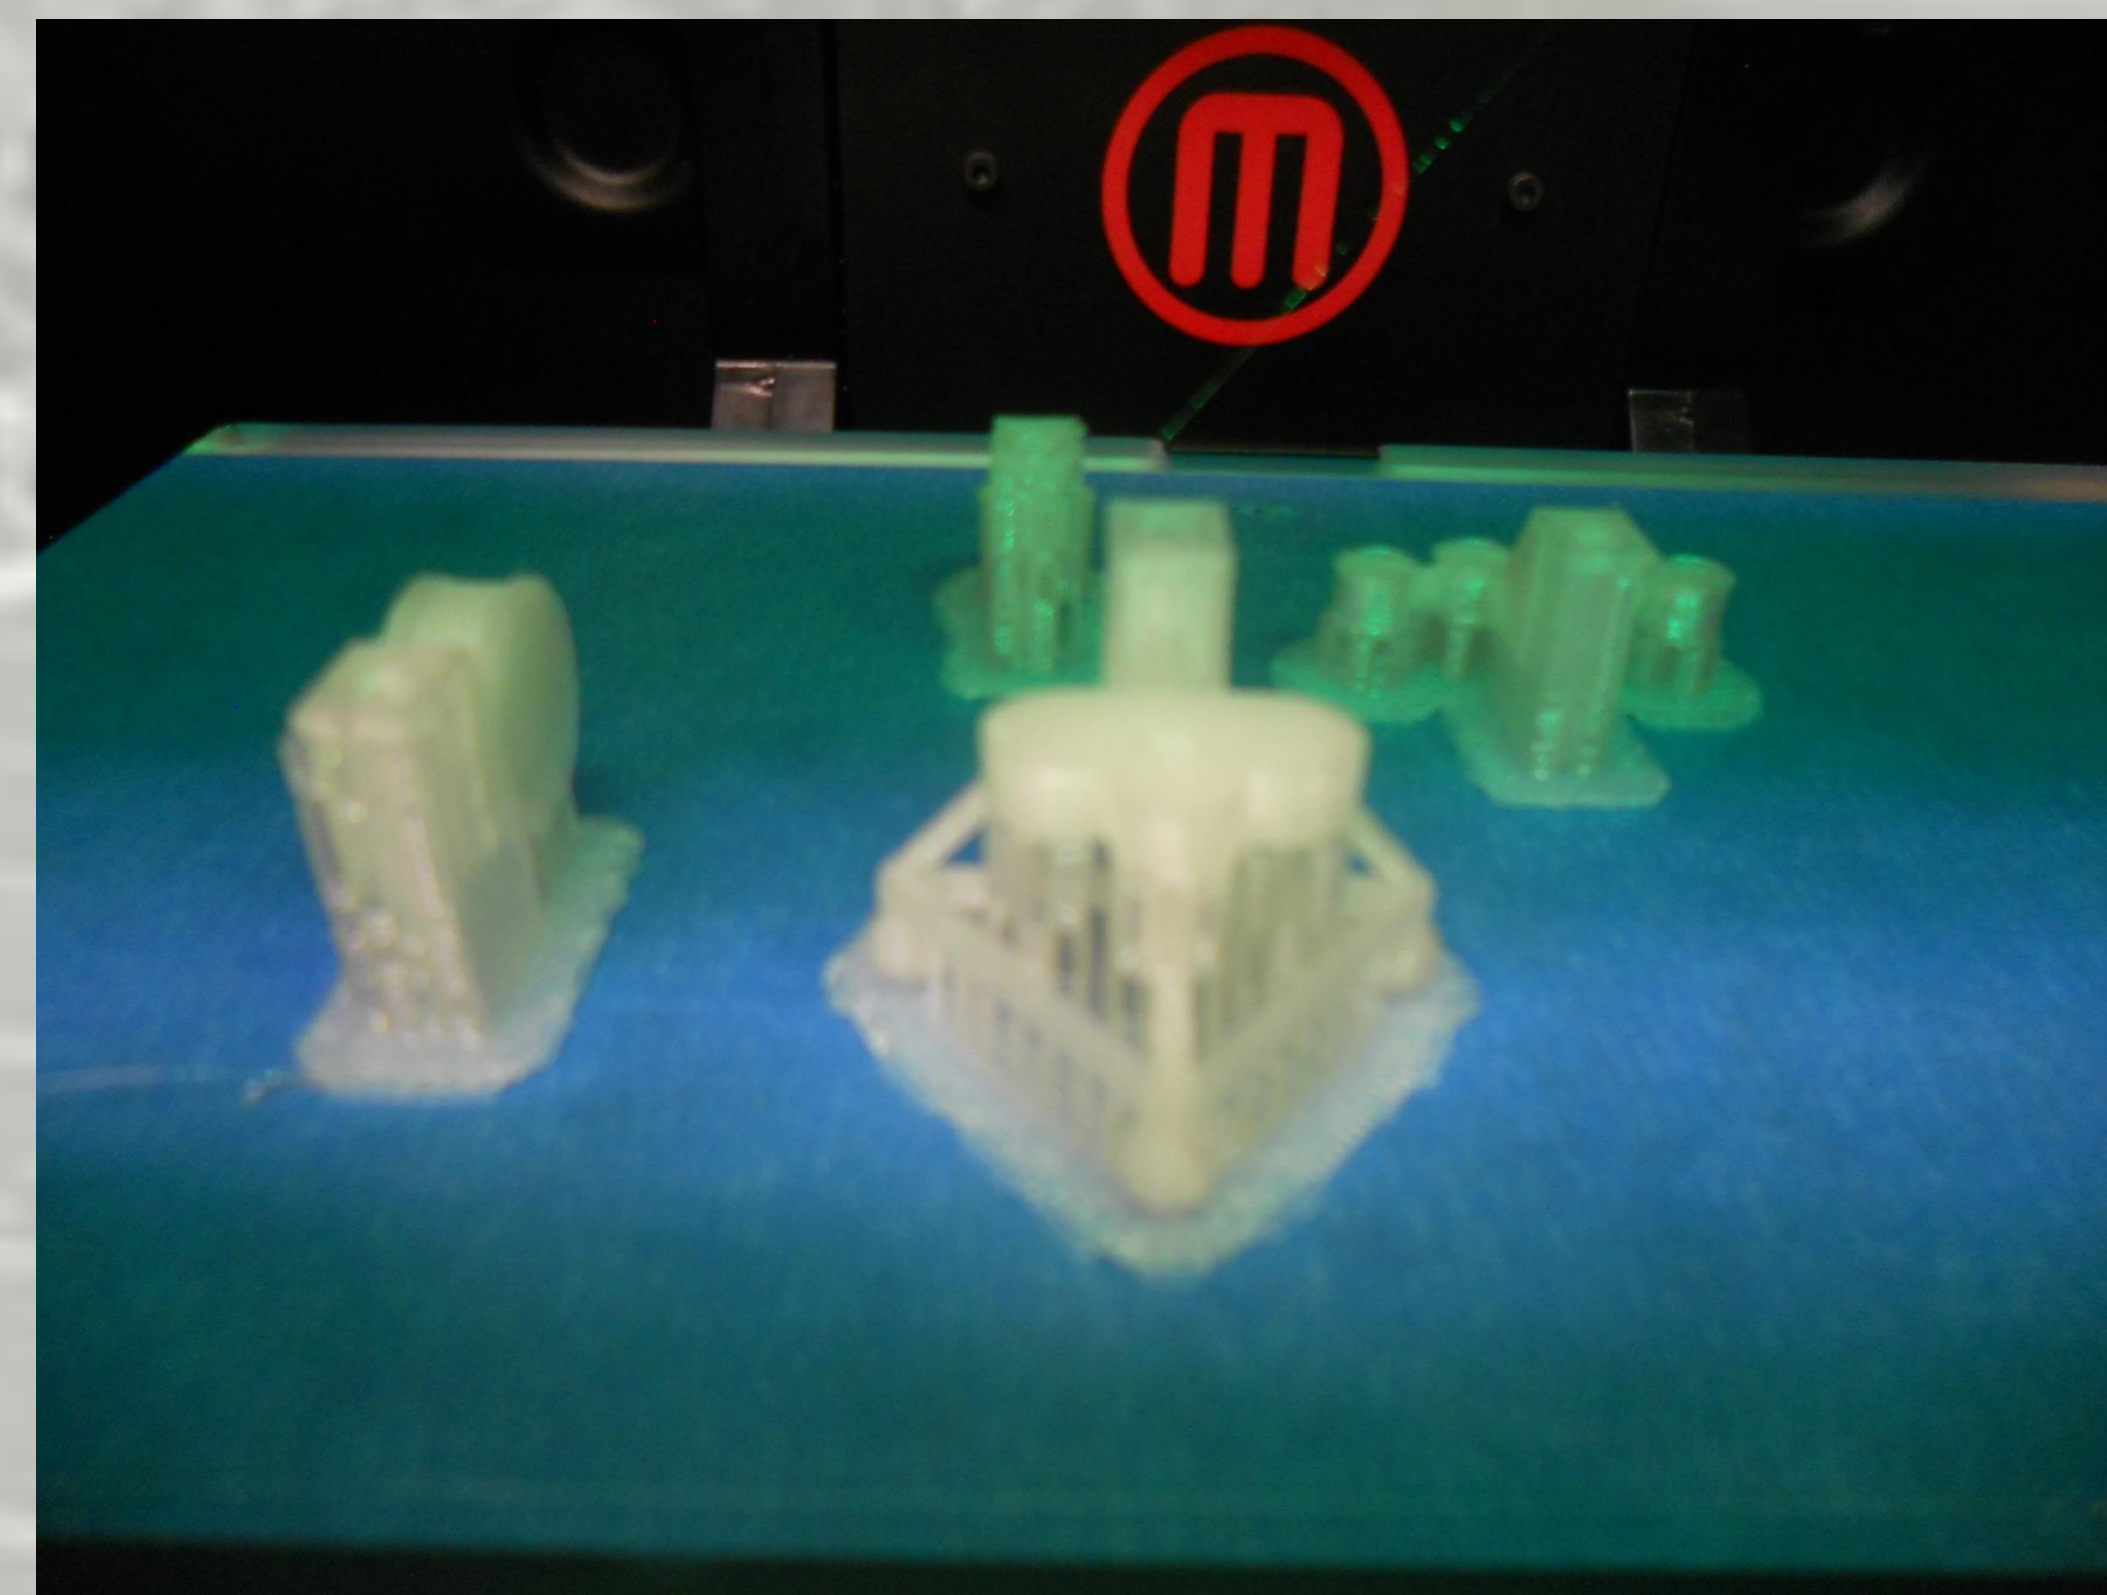

Engineering in Action

BandBeesten and Txalaparta in the November 9th, 2013 Sound of Idaho Halftime Show. Both were designed and built in Fall 2013.

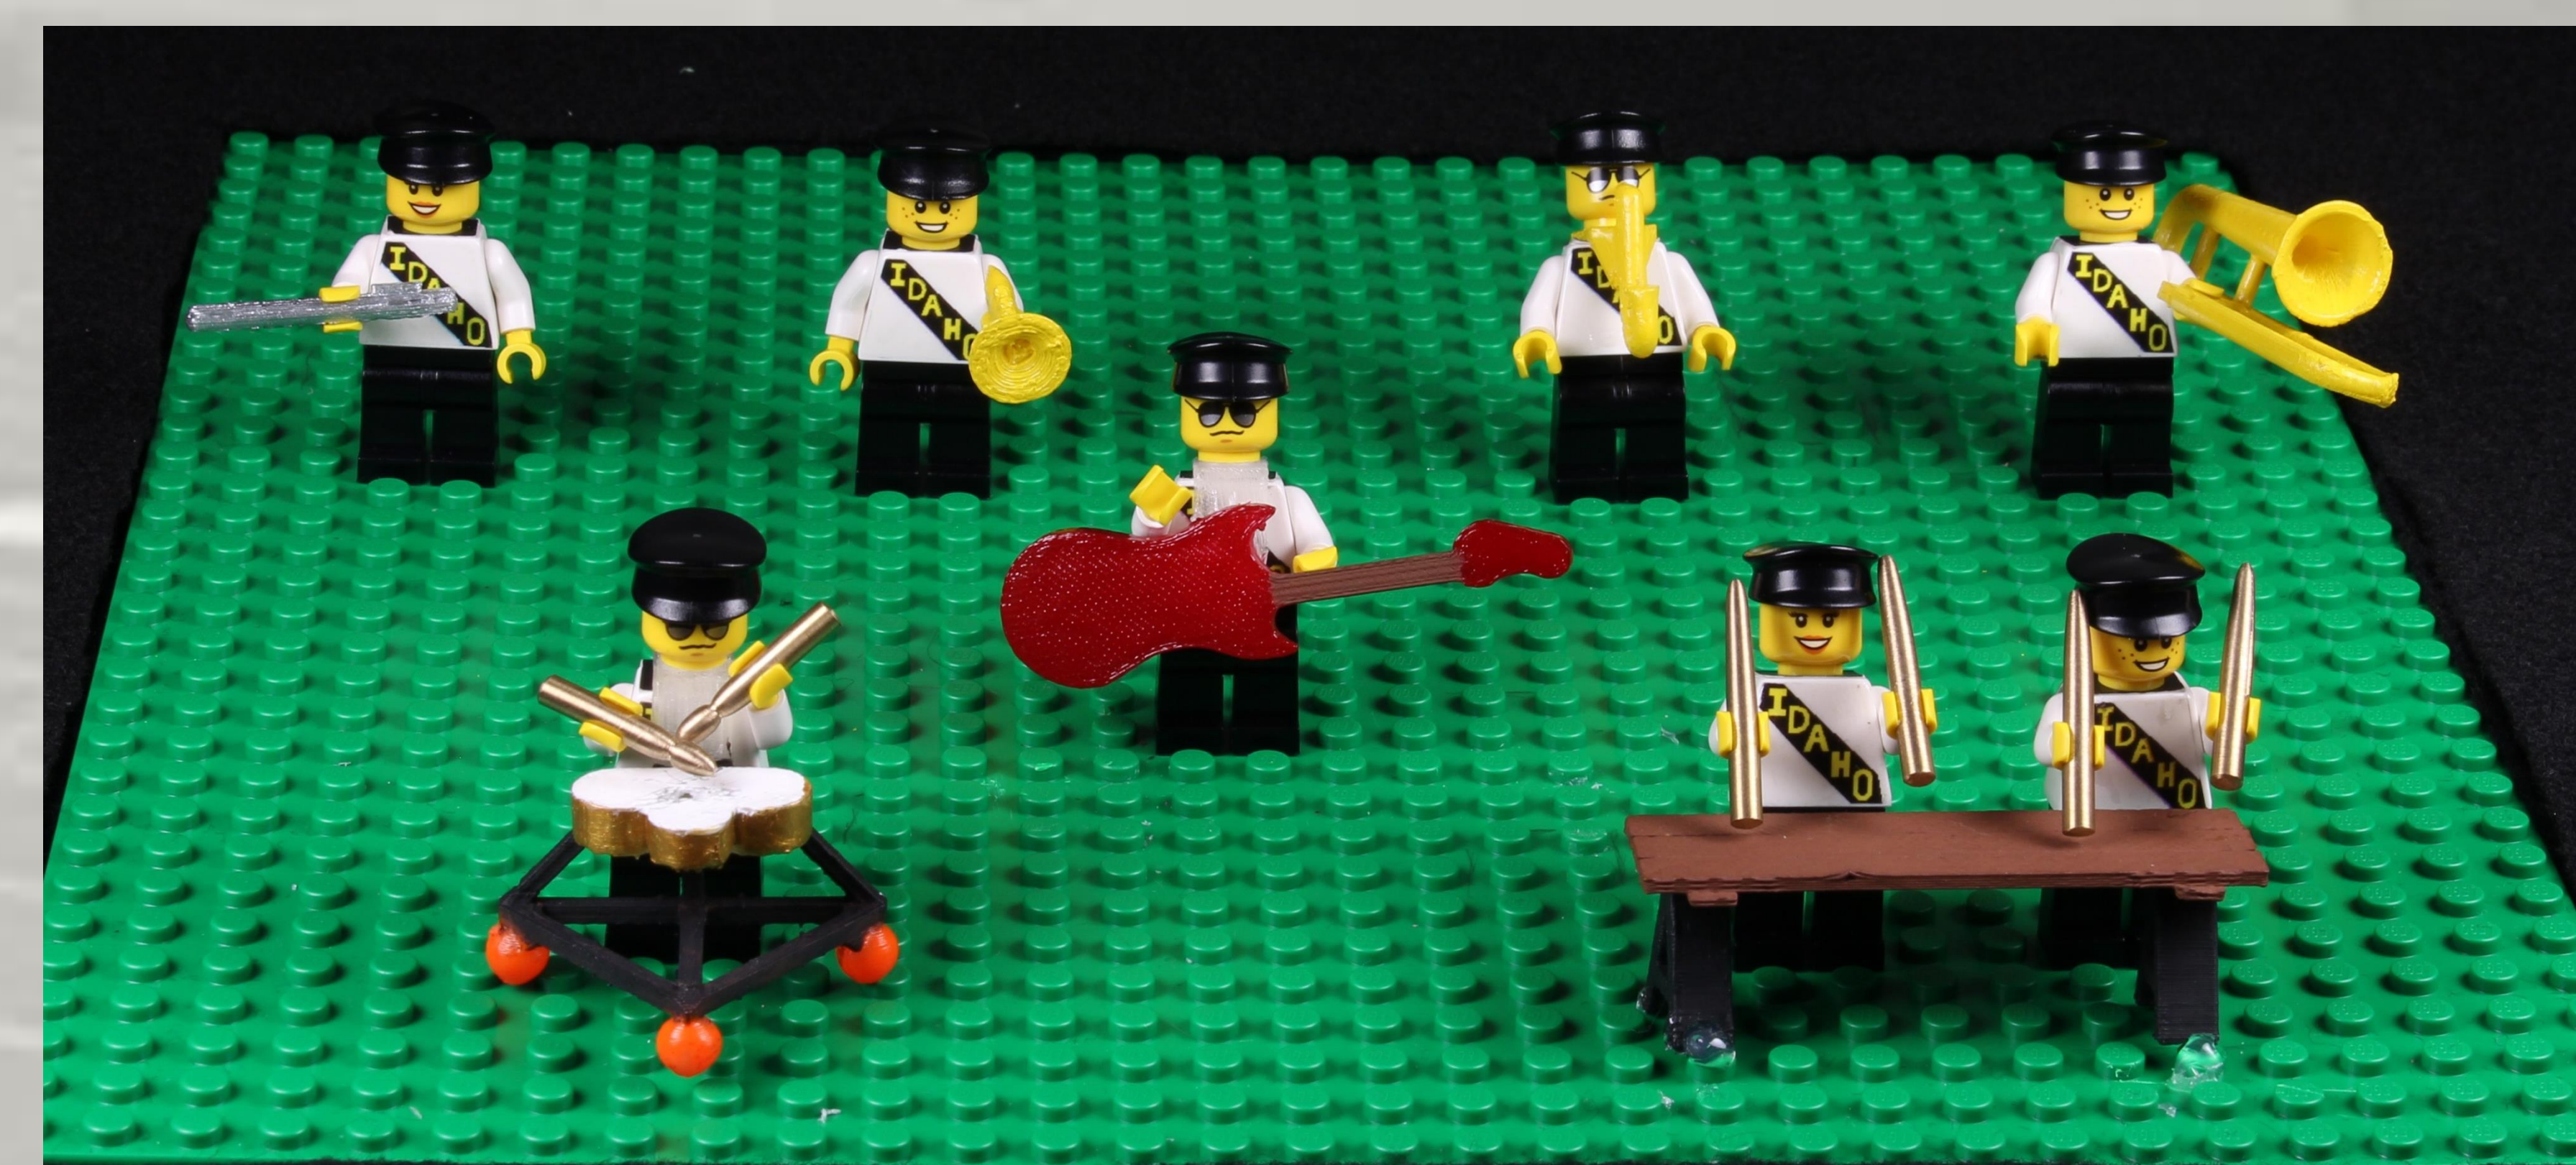

Creating the Sound of Idaho in Stop Motion

Custom decals were created to replicate the uniforms of the band.

The MakerBot was used to print miniature versions of the instruments.

One of the frames used in the final stop-motion video.
