

## **Meeting 8 3/3/2016**

Next Tuesday is snapshot day.

Prepare poster.

Summarize what we have done so far.

For GUI – be able to set acceleration

Projected velocity

Eric is official team leader.

Thomas is secretary.

Action Items:

Ben and Jesse: combine storyboard

Thomas: compile minutes

Eric: poster and portfolio cover

Official name: FlyCAM – Flywheel control and monitoring

Official abstract: A storage system of any kind is useless without a control interface. Our user-friendly design allows for precise control of Idaho's Flywheel Energy Storage System. Additionally, it provides intuitive monitoring of the Flywheel's performance.
