

10/17/14

Meeting in senior design suite

Goal: design matrix to compare drive trains

Discussion: timeline done by Thursday-Nick

For the future, all pages officially printed for portfolio will have line break to show paragraphs, 11 times new roman font, 3.25 inch pictures.

Logo will be done for next meeting-Alex

Dr. Santara visit- discuss nerd stuff

After design matrix finished, skid steer with tread wins. The tread will be below the robot and our design will not be flappable.

Next meeting- Tuesday after class-sensors and computers, discuss how we find volume and video of tunnels.
