6. Additional questions and information

We focus on practicing the equipment and get familiar with the system this semester, and we finish next semester.

Use the Samsung computer to control the Real-Time Automation Controller.

The Real-Time Automation controller we use in the lab. It's called SEL 251S L2.

It is a screenshot of control SEL 351S L2 and step to write code in it.

Dr. Johnson showed us other Real-Time Automation controllers that Previous teams used.

We can get information of how to use the Real-Time Automation Controller from the DVD and the website.

Next meeting would be held in G10 of Buchanan Engineering Lab on October 4, 2018 12:30pm.
