|--|--|
| 1. Design Review Slides Critique (Dr. Swenson) | 1. Needs objective slide. Slides on their own should stand up not just be images with no text. The show should work from the top down so context is understood by all. Details should be highlighted but not gone into detail to avoid slide reading by speaker. |
| 2. Plasma Cutter (Selso) | 2. Tadd Wheeler in the Ag shop can cut parts for \$20 ea. He needs drawings, specs, etc, and materials. Will will contact him. |
