

Week (#5)

- Citizenship form on mindworks (due by Friday next week 21st Oct.)
- Safety courses need to be completed.
- EEs follow up with Dr. Hess on safety courses. Scott M needs to complete safety training.
- EEs will set up meeting time at steam plant.
- Infrared camera or thermocouple.
- Can run electricity into TEG to use as a cooler(snapshot participant thought).
- Daniel Schnieder has heat pipes (available to team).
- Heat pipes for ME cooling issue? (research heat pipes)
- Buy the part if it's within cost range rather than creating it yourself. (time vs. initial cost)
- Dr. Hess mentions following timeline. Timeline is subject to negotiation as will budget based on design specifications.
- Consider elevator pitch.
