

Jesse:

When recording, the program now records all values. I moved all recording functions into its own class to increase our separation of concerns.

Thomas:

I put in the code to gray out the change settings button until you enter some chars, and continued documentation and commenting

Ben:

I have a couple bugs to fix in my code, once they are fixed I will push them and hopefully we can begin testing. Can we add a menu to the GUI for serial settings? This would be things like Baud Rate, Stop Bit, Flow Control, etc.

Eric:

Meeting with Ben to begin testing the serial communications
