

- Recap
 - Objectives
 - Work on the wikipage
 - Timeline created
 - Setting up the environments for coding
 - Contract signed (the updated one)
 - Sensor reviews
 - Accelerometer
 - Should have sufficient range
 - Light sensor
 - Enough range
 - Does it enough granularity
 - Maybe more than one sensor
- Questions
 - Try to develop on arm cortex?
 - Breadth of tools is limited
 - Multiple sensor for light?
 - Down lighting
 - Multiple sensors would be good
 - Algorithm parts of the screen separately
 - Design review?
 - Thursday the 20th at 4pm
 - Run video conference off of browser add-in
 - Beagle bone cape?
 - Should not pursue
 - Makes the touch sensor connection difficult
 - Change in next week's meeting time?
 - No problem
 - Connection testing for blue Jeans
 - Can test connection after next week's meeting
