

## **Team Shock'em Meeting Minutes**

Time: 4:30pm – 5:00pm

Date: 11/14/2019

Location: CNR 205F

Attendance:

Austin Grieve

Samantha Baran

Xuyue Gu

Ziqing Zhu

Lauren Smith

Feng Li

Peter Baran

## **Topics of Discussion**

1. Austin and Lauren met at Sunday come up with their PCB for arduino base and use easyEDA
2. Austin got PCB made and ordered and will be here at Tuesday.
3. Samantha, Xuyue and Ziqing worked on the Nanotron and arduino and had some problems with connecting them.
4. Read through the guideline to find the code what we need.
5. Samantha successfully use the arduino to get the distance.
6. Wiki page need more images.
7. Discuss about the Presentation.

## **To Do**

1. Have a successful presentation.
2. Austin and Lauren continue working on the PCB design.
3. Samantha, Xuyue and Ziqing continue trying to figure out the useful code.
