### Meeting Log:

- Meeting Started at 5:30 PM
- Recapped the previous meeting
  - We emailed Dr. Ay
    - Mentioned how our sensor will saturate while outside, so we need solutions to this
      - Find a new sensor, or
      - Find an attenuation method
  - Everyone has a task to do before the Engineering Release Review
    - Nick is creating a model of the case
    - Brady is updating the Wikipage
    - Adriana is researching glass vs acrylic
    - Lukas is updating the Gantt Chart and looking into glass and acrylic costs
- We have more questions ready for Dr. Ay
  - We need to schedule the appointment with him so that we can ask these questions and validate our designs
  - We need to find out if our designs work and Dr. Ay is the most qualified to tell us about our sensor information.
- Adriana and Nick are going to create a guidebook on the Q-Sun Xenon Tester so that all of us can use the machine
- Engineering Release Review is on February 17<sup>th</sup> at 7:30 PM
  - It is taking the place of our team meeting on Wednesday
  - We plan to meet up in the next few days to work on the presentation and to practice before the Release Review
- Meeting Ended at 6:17 PM
