

2/28/2014

UI Steam Power

Minutes 2/28

Attended: Ryan, Chris, Donald, Dr. Xing, Amrit, Dr. Beyerlein,

Agenda

- Recap Design Review #2
- Timeline for remainder of semester?
- Delegate remaining tasks (Next Week)
- Snapshot day?
- Create list of questions for Gene

Discussed Topics:

- Design review 2
- Questions for Gene
 - What do you want the voltage to be
 - Regulatory measures and concerns
 - Protection considerations (energy distribution side of things)
 - Current electrical load of the steam plant
- For Snapshot day (March 11), develop a preliminary outline of our final report
- Investigate possible risks
- For installation costs, include instrumentation costs

Action Items:

- Email Gene both PowerPoints and list of questions
- Obtain installation quotes and regulatory concerns (documents to look at) from McKinstry (David Naccarato)
- Register for Expo
