

Kathryn Update:

- Operating systems downloaded for both Pi's
- Pi 0 – needs to go through and do the setup (just got the adapter)
- Pi b+ - everything is updated, and it is broadcasting a wifi signal
 - o it may only broadcast if it is connected to ethernet

Charlie Update:

- went into lab on Tuesday with Phil to look over the 555 Timer
- we tested everything and still weren't able to get the output we wanted
- will be looking at a new website reference that phil suggested
- working on it tomorrow after exam tomorrow and on Saturday

Friday:

- Jason will fabricate in the wood shop from 3-6

Saturday:

- Charlie and Phil on 555 Timer
- Kat and Jason from 2-5 programming the Pi's
- Jason pick up a battery charger

Symposium:
