 - Use Dividers/ 3 hole punch
 - Papers relevant - only if relatively short (<50 pages should be left out)
 - Other resources and references
- Decide on a Wiki Title, Assign Wiki Master
 - Wiki Title - Low Cost EEG for Educational Purposes
 - Define EEG
 - Wiki Master - Corey Knapp
 - Delegate tasks
- Design Validation Plan Due 10/18
 - Pushed to next Thursday
- Project Value Proposition Due 10/25
 - Paragraph from snapshot day
 - Show big picture of product - why/background
 - 1 to 2 paragraph
 - Pitching on Friday
 - 1912 Center 5-7
 - Just elevator pitches
 - Casual
 - Testing more electrodes and microcontrollers to have more reliability
 - Small budget currently
 - Don't have to just go with the first guess, we can afford to test different products
- Schedule Electrode Testing
 - Get electrodes done and designed by November, have November and December to test microcontroller
 - Filter/Amplifier
 - PCB and what to put the micro controller on
 - Design/Testing: Thursday from 3:00
 - Meet in EE Senior Design Lab
- Decide who reads next chapter
 - Allison Ellingson
- Filter Design
 -
