

Biography-Philip Petersen

My name is Philip George Petersen. I am from Idaho Falls, Idaho and love all outside activities, mountain biking in particular. I thought this was what I was going to do with my Mechanical Engineering Degree. I have also studied German since high school and just finished my minor last semester. These two passions culminated in an internship with NICOLAI bikes in Lübbrechsten, Germany. I have found there and my other internship at Idaho National Laboratory (INL) that I love new challenges involving cutting edge technology, I saw both of these in this JPL project. I am excited for what challenges this project will pose and hopefully we will deliver a satisfying result.
