

MINUTES – Fly Rollers Meeting 21 (3/31/16)

Dr. Santora and all team members present

Discussion:

- a) Team FIGs updated Santora on their progress
- b) Dr. Berven will work with Evan to get various mechanical components needed for the vacuum

Action Items:

- 1) Philip will continue taking the lead on coding
- 2) Evan will continue taking the lead on wiring and constructing the flywheel
- 3) Brian will confirm a power supply, work on the wikipage, and find needed PID constants
- 4) Gavin will continue working through BiSS communications and start working on the Expo poster
- 5) Everyone needs to starting writing their portion of the final paper

Respectfully Submitted,

Gavin Meyer
