

MINUTES – Fly Rollers Meeting 15 (2/11/16)

All team members present except Brian Tucker. Michael Santora and Feng Li are present.

Discussion:

Review of action items

- Phillip- Has ordered connectors for vacuum couplings, is actively learning more microcontroller
- Evan- Learning KiCAD, researched and submitted connectors for approval to purchase
- Gavin- Has had some luck researching an absolute encoder but has yet to find one for our specific application

Design Review scheduled for 2/16/16 in ECE Conference Room at 4:30

Action Items:

- 1) Put together PowerPoint for design Review
- 2) Everyone should know and understand the material in PowerPoint
q and d-axes and how they work.
- 3) Review Joe Law's dissertation on q and d-axes
- 4) Update Gantt chart
- 5) Figure out communication between microcontrollers
- 6) Update Budget
- 7) Visual Aids for PowerPoint

Respectfully Submitted,

Evan Lovel
