

Present:

- Blakely F.
- Delaney F.
- Gabriel H.

Summary (Main points):

- Summary
- Team Meetings
- To Do
- Important Dates

Summary:

- Meeting with Victor:
 - o On-campus hosting
 - o Server is just a CentOS (default)
 - o SSH: cs-merge.cs.uidaho.edu
 - o SSH accounts/passwords will be emailed.
 - o Goal: intent is to get this as a working prototype that isn't used for production.
- Important Notes:
 - o Server will be scanned as defined under University policy.
 - o Administrative access is being granted as this is for development.
 - o Once you see cs-merge.cs.uidaho.edu server you will be able to perform tasks such as rebooting or even powering on the server if for some reason it goes offline.
 - o Do not remove or alter the *cshelp* account on this server.
 - o Do not install personal usage or student licensed software on this server at all. If this is found then the server will be placed into restrictive space till we have a better understanding again not intended to stop productivity, but we do not violate copyright in order to get our work done

Team Meetings:

- Next Meeting: Feb 25, 2020 @ 3:30pm

To Do:

- Submit Project Description and Reservation for the Pitman Ball Room
- Prepare presentation for Engineering Release Review
