## Agenda/Minutes

---

Agenda item: Update team on fish poking tests

Discussion: The test did not work, the required force for poking fish was too large, needle spacing may need to change again, a larger roller diameter may help solve some of our problems, look at designing our own needled rollers, may be useful to find rough surface area of fish to determine desired needle densities,

Conclusions:

Action items	Personnel Responsible	Deadline
Try new handle on needle roller to feed fish through the chute	Cody	9/4/20
Contact someone in fish and game to discuss adipose fin clipper	Cody	9/4/20

---

Agenda item: When should the team contact Ken Cain with our results

Discussion: After testing of the new handle idea the team needs to contact Ken Cain with our current results, Jot down new ideas for testing and moving forward.

Conclusions:

Action items	Personnel Responsible	Deadline
Contact Ken Cain	Ben	9/8/20
