

Team Meeting Agenda 1-30-15

- Review Team Contract
- Discuss who our SEL client is & get their contact info.
 - Amandeep Kalra
- What does SEL want from this project?
 - To develop laboratory experiment to teach UI students how to connect and configure a robust communication network for substations.
 - To search for optimizations for the current substation communication technology.
- Why is it important for substations to communicate with each other?
 - For protection.
- Do substations currently communicate with each other?
- Review project timeline.
 - Project Learning > System Design > System Analysis > Testing > Labs
- Create labs to teach students about comm. networks.
- Tailor labs to ECE 421/422/444/544 & CS420
