

Team Meeting #6

10/09/19

PRD

- Angel will review PRD, will get notes by noon

Encoder

- Encoder Model TR1 to be able to measure the insulation
 - Able to choose wheel size
 - Able to choose material
 - Can choose output
- Angel comment
 - Think about it starting and stopping and how that can affect the measurement

Raspberry Pi

- Able to change database easily
- Excel database for the barcodes
- Raspberry Pi is what we believe is a better option over Arduino
- Ian will send Swenson things we need to order today
- Instead of a package we will order things individually
 - This is to ensure component integrity
