

# THE BEAST

Mentor Meeting #12

Monday, 10/07/2019

## AGENDA

<u>Topic</u>	<u>Item</u>	<u>Resolution</u>
<b>Business</b>		
Example	I. "Design Review" (Spencer not able to attend)	I. Dr. Swenson had the following concerns. <ul style="list-style-type: none"> <li>a. No documentation seen yet.               <ul style="list-style-type: none"> <li>i. Building has taken priority over formal documentation to meet early deadline.</li> </ul> </li> <li>b. The project appears to be more like a hobby build than an engineered project.               <ul style="list-style-type: none"> <li>i. Napkin math and other less than documented considerations have been made, but unfortunately (see I ai)</li> </ul> </li> <li>c. Meeting with the client has not been achieved all semester (especially before building has begun so that design may be finalized first)               <ul style="list-style-type: none"> <li>i. Attempts have been made, but Spencer has been difficult to schedule meetings with, also building had to begin early to meet deadline)</li> </ul> </li> <li>d. How will wiring be accomplished?               <ul style="list-style-type: none"> <li>i. Wiring is very similar to the previous groups just larger in size and a few additional components. Circuits are very simple in nature.</li> </ul> </li> <li>e. How will the user interact with the control system?               <ul style="list-style-type: none"> <li>i. Same method as previous groups. Flysky remote for power control and emergency switch on front.</li> </ul> </li> </ul>
