

Members in Attendance:

Adriana O.	Nickolas B.
Brady J.	Steve S.
Lukas V.	

Meeting Log:

- Steve looked into the Xenon Tester. They need to find the serial number to access the owner's manual.
- Nick created calibration code to export all the data we gather to Excel or PLX-DAC
  - This will help us determine the sensitivity of our pyranometer.
- We were worried about not being able to run a cable out of the test chamber but Steve said that we won't have to worry about it.
- Meeting next Wednesday, February 3<sup>rd</sup> will be in the ECE Ambassador's lounge.
- Other things to consider:
  - Updating the Gantt chart with new dates.
  - Update the Wiki page.
  - Start the user manual for our product.
- Future dates
  - Engineering Release Review: 2/19.
    - Adriana will email Dr. Li and Dr. Johnson to see if they're available on a Wednesday.
  - Logbook due 2/19.
  - Snapshot 3/9.
- Sailor hats are required for the engineering expo.
