

Meeting Minutes 11-27

Present

- Jake
- Emily
- Dr. Rezaie

New Design

ACTION ITEM: Email ray about definite design change, if the thermal storage already built, Safety requirements, and documentation changes

Heater:

- We found AHF heater from omega
 - \$220
 - 320C max T (600F)
 - 200CFM
 - 240V
 - 2 3/8" OD
- Could also consider immersion heater (would require liquid fluid)
- Propane Heater (would require building device to force air through heated point)

Gas Container

- Build metal box
- Talk to gas companies about unused gas containers

Safety Concerns: Working off site and electrical wiring

Other Notes: Completely forget solar portion, ORDER PARTS BY WINTER BREAK
