

Meeting Monday 11/2/15

Discuss plan to make pendulum

Decide what time for design review meeting Nov 13th

Show wiki page

Talk about ideas and action items

Design – rotary = electric and pendulum.

Plate accelerated with spring was another idea.

Ask to see if we can get one that moves, so we can make sure that ours moves.

Other things to think about – just getting into the prototyping is good.

Powerpoint –

There was a show about NightForce – we could pull a video about hitting the scope and what they do now.

Action Items:

Sketch pendulum design before – Dillon

Look at scrap – All

Meeting – 2:30

- Reverse Room 2:30 – 4:30 have PI come at 3.
- Jason email PI
- Bring Accelerometers – That day or before.
- Ask to get holder – Jason

Get software on laptop – Kylie

Go to other people's design reviews – All

- Vandal gear
- Or semi-nice clothes

Watch history channel show about NightForce – All
