

Meeting Notes

December 7, 2017

What was discussed:

- Meet therapist TOMORROW, 5:00 pm, at Mountain Sports Therapy
- Discussion with CS stuff
 - Matthew to work on stuff over break
 - Data has some issues - the sensors are relative to the “real world” not just “itself”
 - Must perform an exercise in the exact same direction every single time?
 - Global frame is shifting... we need to make it change for all of them so that they cancel each other out.
 - Probably need to figure out how to deal with this rather than change it.
 - Use quaternions??
 - It doesn't Bluetooth to phone unless it is connected to the computer.
 - We need to fully understand the information this device can give us as of now.
 - Looked at which vectors are x, y, and z from the chips
- Contact Dr. Perry about printing needs if we need his help 😊
- Look into meeting with therapist from Gritman also
- Next semester weekly meetings: Thursday at 3:30 pm, or Friday at 1:00pm
- Meet with therapists next semester: January 19 or Jan 26

To do before next meeting (12/7)

- All to prep for chat with therapist

Agenda for Next Meeting:

Date: Thursday, January 11th, 2018

Time: 3:30 pm

Place: Think Tank Room A

Agenda:

- Discuss this semester's project timeline
- Depending on when our meeting with the therapists is, think of questions/schedule to discuss with them
